*Just Use This Mind*, critically acclaimed in Taiwan and mainland China, shows readers

from any religious or philosophical traditions the importance of utilizing one's own mind to become the master of one's own thoughts. Master Miao Tsan shares the essence of the collected wisdom of Zen masters reaching back to the original Buddha. He believes once one embarks on the path Master Miao Tsan puts forth there, they have found the way to live the life of joy they were born to experience, no matter what their circumstances are. He reveals both the nature of the life of joy people were born to experience and an effective path towards it -- through *Zen or through their own traditions*. Freed from cultural attachments, the essence of Zen training brings people back home to a place of deeper meaning and leads them to their true selves, where mind and body are one.

The Very Reverend McGehee served as the Dean of Christ Church Cathedral for 11 years and retired to become director of The Institute for the Advancement of Psychology and Spirituality. The Institute joins the disciplines of psychology and religion by exploring the concept that mental health comes with the integration of the biological, psychological and spiritual elements of the human condition. In 1996 the C.G. Jung Institute of Dallas awarded him a diploma in Analytical Psychology. He is in private practice as a priest/psychoanalyst and teacher/lecturer.

Master Miao Tsan has conducted meditation courses and Zen-Seven and Zen-Three retreats in the United States, Mexico and Taiwan. He lectures extensively and has given meditation courses and interviews at universities and medical centers around the world. He has a large, devoted following in Asia and the West.

The books *Just Use This Mind: Following the Essence of Zen to Oneness of Mind, Body and Spirit* (Bright Sky Press, January 2011) and McGehee's *The Invisible Church: Finding Spirituality Where You Are* (Praeger Press, 2008), will be available for purchase after the program.
